FLEXIBLE PACKAGING CONVERTERS

About us:

Established in 1994, Misr Rotogravure has become one of Egypt's leading companies specialized in flexible packaging and rotogravure printing. Our success is attributed to our team of 400 dedicated employees who work around the clock to make sure our clients receive quality packaging worthy of their products. Realizing the fact that Egypt has become a very hot spot for local and foreign investment and knowing our capability to provide world class quality packaging, MR decided to fast forward its progressive plans to meet a fast growing demanding market.

At MR we believe sky is the limit. Therefore, Rotogravure Industrial Investment Company had to emerge in 2001 to help MR serve clients beyond Africa and the Middle East and to reach various global markets in Europe and North America.

Both companies are currently serving several multinational as well as leading local companies in a highly competitive market .
